## **Key Features**

| <b>Efficient Renewal</b><br>Tracking                | Store and organize certificates by family, model, country, and certification type.  |
|---|---|
|   |   |
| Automated Expiration<br>Notifications               | Automated renewal tracking allows assigned user(s) to stay up to date on re-certification status and request quotes for renewals.     |
|   |   |
| Organize and<br>Categorize Certificates             | Store product information and technical file documents associated with each certification.  |
|   |   |
| <b>Flexible Expiration</b><br>Notification Settings | Customize the automated expiration notification period for up to 1 year prior.  |
|   |   |
| Seamless Integration<br>with Access Manager         | Certificates received are automatically entered<br>into the Certificate Management System with<br>both issuance and expiration dates. |
|   |   |
| Generate Reports and<br>Share with Ease             | Create custom reports with ease by using the numerous search criteria options and export to share with your team.                     |
